Annual Indexes

Volume 2—October 1972 to July 1973

1. Subject Index

A

A Luminance Concept for Working Interiors ... 92
American National Standard Practice for Industrial Lighting ... 461
A Method to Prevent Iron Contamination During Manufacture of Incandescent Filaments ... 387
Analysis of Visual Performance Data Obtained in a Landolt Ring Task without Response Limitation ... 445
Anatomy and Electrical Characteristics of a New Fluorescent Lamp ... 3
Discussion ... 144
An Evaluation of VCP Calculations ... 355
A New Concept Photometer ... 55
Discussion ... 146
A New High-Intensity Discharge Light Source with a High Color Rendition ... 197
Appendix to RQQ Report No. 2 (1972) ... 504
Application of ESI Predetermination Techniques ... 216
Application Procedures for Evaluation of Veiling Reflections in Terms of ESI ... 230, 254, 284, 299
Automotive Lamps with Faceted Reflectors ... 36

B

Batwing Distributions, Evaluation of ... 130
Book Reviews ... 79, 167, 345

C

Colorimetry, The Flattery Index ... 351
Color Rendition of New High-Intensity Discharge Light Source ... 197
Color Shift Measurement, with Various Light Sources ... 23
Computer Design of Automotive Lamps with Faceted Reflectors ... 36
Contrast Rendition Factors, Predetermination of ... 149
Current Runaway in Fluorescent Lamps ... 43
Discussion ... 143

D

Daylight, Industrial Lighting ... 476
Determination of Effective Candlepower of Modular and Linear Regressed Systems ... 504

E

Effect of Hydrogen Additions to Argon on Conduction-Convection Losses ... 19
ESI Calculation, RQQ Report No. 5 ... 149
ESI, Evaluation Application Procedures ... 230, 254, 284, 299
ESI Predetermination Techniques ... 216
ESI, Visibility Assessment in Lighting Engineering ... 437
Evaluation of Luminous Radial Batwing Distributions ... 130
Expansion of the Zonal Cavity Method to Asymmetric Fixtures ... 178

G

Glare Control, New Concepts in ... 209
Guide to Authors ... 2

H

Hafnium Fuel for Photoflash Lamps ... 362
High-Intensity Discharge, with High Color Rendition ... 197
High Intensity Portable Light for NASA Skylab Project ... 171
High Performance Fluorescent Lamps ... 29
Discussion ... 148
Hot Spot Burnout of Tungsten Filaments ... 372
Hot Spots and Their Effect on the Lives of Incandescent Filaments ... 381
Hot Spots Caused by Necks in a Straight Incandescent Tungsten Lamp Filament in Gas ... 366
Human Performance—A Pilot Study ... 190

I

IERI Reports
Analysis of Visual Performance Data Obtained in a Landolt Ring Task without Response Limitation ... 445
Application Procedures for Evaluation of Veiling Reflections ... 230
IES Approved Method for Life Performance Testing of Fluorescent Lamps ... 66
IES Publications, List of ... 347
Incandescent Filaments, Iron Contamination ... 387
Industrial Lighting, ANSI Standard Practice ... 461
Interchange Illumination—Engineering and Economics ... 50
Discussion ... 507

L

Light Sources
A Method to Prevent Iron Contamination During Manufacture of Incandescent Filaments ... 387
A New High-Intensity Discharge Light Source with a High Color Rendition ... 197
Automotive Lamps Faceted ... 36
Current Runaway ... 43
Effect of Helicoidal Configuration ... 202
Hafnium Fuel for Photoflash Lamps ... 362
High Intensity Portable Light for NASA Skylab ... 171
High Performance Fluorescent ... 29
Hot Spots and Their Effect on the Lives of Incandescent Filaments ... 381
Hot Spot Burnout of Tungsten Filaments ... 372
Hot Spots Caused by Necks in a Straight Incandescent Tungsten Lamp Filament in Gas ... 366
Hydrogen Additions to Argon ... 19
Life-Voltage Exponent for Tungsten Lamps ... 83
New Fluorescent Lamp ... 3
New Fluorescent Lamp for Plant Growth Applications ... 139
Retina, Heating of ... 61
The Joining of Molybdenum Foil to Tungsten Rod for Quartz Lead Throughs ... 396
Xenon Compact Arc ... 8
Luminaire Classification ... 480
Luminaire Projected Area, Determination of ... 418

M

Molybdenum Foil Joined to Tungsten Rod ... 396
Monetary Values Drivers Place on Comfort in Night Driving ... 104
Multidimensional Scaling of Luminous Environment ... 113

N

NASA Skylab, Portable Light for ... 171
New Concepts in Direct Glare Control ... 209
New Fluorescent Lamp for Plant Growth Applications ... 193
Discussion ... 506
Numerical Ranges of the Diffuse and Specular Reflectances ... 400

O

Octave Band Spectrum Criteria for Lighting-Generated Sound ... 411

P

Photoflash Lamps, Hafnium Fuel for ... 362
Photographing Lighting Installations ... 99
Photometer, A New Concept ... 55
Plant Growth, New Fluorescent Lamp for ... 139
Prescribing Illumination, Method for ... 496
Publications of IES, List of ... 347

R

Radiant Heating of the Retina by Non-Uniform Light Sources ... 61
Discussion ... 508
Recommended Levels, Industrial Lighting ... 469
Recommended Reflectance, Industrial Lighting ... 475
Reflectances, Numerical Ranges ... 400
Roadway Lighting
Interchange Illumination ... 50
Monetary Values Drivers Place on Comfort in Night Driving ... 104
Roadway Lighting Design from Extra High Mounting Heights ... 422
System Analyses of High Mast and Conventional Street Lighting ... 121
RQQ Report No. 2 (1972) ... 328
Appendix to ... 504
RQQ Report No. 5. The Predetermination of Contrast Rendition Factors for the Calculation of Equivalent Sphere Illumination ... 149

S

Searchlights—Xenon Compact Arc Lamps for ... 8
System Analyses of High Mast and Conventional Street Lighting ... 121

T

The Determination of Luminaire Projected Area ... 418
The Effect of Helicoidal Configuration on Non-Circular Cross-Section Discharge Lamps ... 202
The Flattery Index ... 351
The Joining of Molybdenum Foil to Tungsten Rod for Quartz Lead Throughs ... 396
The Predetermination of Contrast Rendition Factors for the Calculation of Equivalent Sphere Illumination. RQQ Report No. 5 ... 149
The Subjective Measurement of Color Shifts with Various Light Sources ... 23
Discussion ... 147
20 to 30 kW Xenon Compact Arc Lamps for Searchlights and Solar Simulators ... 8
Discussion ... 143

V

VCP Calculations, An Evaluation of ... 355
Visibility Assessment in Lighting Engineering ... 437
Visual Comfort Ratings, Procedure for Computing ... 328
Visual Performance Data, Analysis of ... 445

Z

Zonal Cavity Method, Expansion of, to Asymmetric Fixtures ... 178

2. Author Index

A

Allen, C. J.—The Subjective Measurement of Color Shifts with Various Light Sources ... 23
Anderson, J. W.—The Joining of Molybdenum Foil to Tungsten Rod for Quartz Lead Throughs ... 396

B

Blackwell, H. R.——Analysis of Visual Performance Data Obtained in a Landolt Ring Task Without Response Limitation 445
Application Procedures for Evaluation of Veiling Reflections in Terms of ESI 230, 254, 284, 299
Blasdel, Hugo G.—Multidimensional Scaling of Luminous Environment 113
Bodmann, H. W.—Visibility Assessment in Lighting Engineering 437
Brecher, G. A.—The Subjective Measurement of Color Shifts with Various Light Sources 23
Bushroe, R. W.—High Intensity Portable Light for NASA Skylab Project ... 171
Buzalski, B. T.—Hafnium Fuel for Photoflash Lamps 362

C

Campbell, John H.—Anatomy and Electrical Characteristics of a New Fluorescent Lamp 3
Comenetz, G.—Hot Spots Caused by Necks in a Straight Incandescent Tungsten Lamp Filament in Gas 366
Corth, Richard—New Fluorescent Lamp for Plant Growth Applications 139
Covington, E. J.—Effect of Hydrogen Additions to Argon on Conduction-Convection Losses 19
Hot Spot Burnout of Tungsten Filaments 372
Life-Voltage Exponent for Tungsten Lamps 83

D

Dawson, C. W.—Hot Spots and Their Effect on the Lives of Incandescent Filaments 381
DiLaura, D. L.—Application Procedures for Evaluation of Veiling Reflections in Terms of ESI 254, 284, 299
Donohue, Robert J.—Computer Design of Automotive Lamps with Faceted Reflectors 36
Downs, Robert J.—New Fluorescent Lamp for Plant Growth Applications. 139

E

Eastman, A. A.—The Subjective Measurement of Color Shifts with Various Light Sources 23
Evans, G. S.—High Intensity Portable Light for NASA Skylab Project 171

F

Fairbanks, Kenneth E.—A New Concept Photometer 55
Faucett, R. E.—Roadway Lighting Design from Extra High Mounting Heights 422
Fischer, D.—A Luminance Concept for Working Interiors 92
Frier, J. P.—Roadway Lighting Design from Extra High Mounting Heights.. 422

G

Garofolo, J.—A Method to Prevent Iron Contamination During Manufacture of Incandescent Filaments 387
Gaston, E. A.—Numerical Ranges of the Diffuse and Specular Reflectances 400
Gerber, M.—A Method to Prevent Iron Contamination During Manufacture of Incandescent Filaments 387
Gulbransen, E. A.—Hafnium Fuel for Photoflash Lamps 362
Gungle, W. C.—A New High-Intensity Discharge Light Source with a High Color Rendition 197
The Joining of Molybdenum Foil to Tungsten Rod for Quartz Lead Throughs 396

H

Haft, H. H.—High Performance Fluorescent Lamps 29
Helms, R. N.—Application Procedures for Evaluation of Veiling Reflections in Terms of ESI 230, 284, 299
Holt, K. D.—Application of ESI Predetermination Techniques 216

J

Jaeger, Arthur R.—A New Concept Photometer 55
Jerome, C. W.—Photographing Lighting Installations 99
The Flattery Index 351
Jividen, Gay M.—New Fluorescent Lamp for Plant Growth Applications. 139
Johansen, H. A.—Hot Spots Caused by Necks in a Straight Incandescent Lamp Filament in Gas 366
Joseph, Bernard W.—Computer Design of Automotive Lamps with Faceted Reflectors 36

K

Kee, H.—20 to 30 kW Xenon Compact Arc Lamps for Searchlights and Solar Simulators 8
Ketvirtis, A.—Interchange Illumination—Engineering and Economics 50
Kimmel, Peter S.—Multidimensional Scaling of Luminous Environment 113
Koo, R. C.—A Method to Prevent Iron Contamination During Manufacture of Incandescent Filaments 387
Koury, F.—The Joining of Molybdenum Foil to Tungsten Rod for Quartz Lead Throughs 396

L

Levin, Robert E.—An Evaluation of VCP Calculations 355
Lewin, Ian—Application of ESI Predetermination Techniques 216
New Concepts in Direct Glare Control 209
The Determination of Luminaire Projected Area 318
Leyden, J.—20 to 30 kW Xenon Compact Arc Lamps for Searchlights and Solar Simulators 8
Loch, Charles H.—Octave Band Spectrum Criteria for Lighting-Generated Sound 411
Lyons, J. F.—Monetary Values Drivers Place on Comfort in Night Driving... 104

M

Matheson, W. G.—The Joining of Molybdenum Foil to Tungsten Rod for Quartz Lead Throughs 396
McNamara, Jr., A. C.—Expansion of the Zonal Cavity Method to Asymmetric Fixtures 178
McNelis, John F.—Human Performance —A Pilot Study 190
Mercado, William—Evaluation of Luminous Radial Batwing Distributions.. 130
Miller, Jack V.—Evaluation of Luminous Radial Batwing Distributions.. 130

N

Nelson, J. L.—Hot Spots and Their Effect on the Lives of Incandescent Filaments 381

O

O'Brien, Philip F.—Radiant Heating of the Retina by Non-Uniform Light Sources 61

R

Radzelovage, W. F.—Hot Spots and Their Effect on the Lives of Incandescent Filaments 381
Razauskas, S. G.—Interchange Illumination—Engineering and Economics. 50

S

Salatka, J. W.—Hot Spots Caused by Necks in a Straight Incandescent Tungsten Lamp Filament in Gas 366
Schwab, R. N.—Monetary Values Drivers Place on Comfort in Night Driving 104
Scott, David E.—Analysis of Visual Performance Data Obtained in a Landolt Ring Task without Response Limitation 445
Sell, H. G.—Hot Spots and Their Effect on the Lives of Incandescent Filaments 381
Shaffer, G.—20 to 30 kW Xenon Compact Arc Lamps for Searchlights and Solar Simulators 8
Shurgan, Joel—The Effect of Helicoidal Configuration on Non-Circular Cross-Section Discharge Lamps 202
A Method to Prevent Iron Contamination During Manufacture of Incandescent Filaments 387
Solomon, D.—Monetary Values Drivers Place on Comfort in Night Driving... 104
Spencer, Domina Eberle—Numerical Ranges of the Diffuse and Specular Reflectances 400
Strauss, H. S.—20 to 30 kW Xenon Compact Arc Lamps for Searchlights and Solar Simulators 8

T

Tallman, R. L.—Hafnium Fuel for Photoflash Lamps 362
Tataronis, R. T.—A New High-Intensity Discharge Light Source with a High Color Rendition 197
Thornton, W. A.—High Performance Fluorescent Lamps 29
Thouret, W. E.—20 to 30 kW Xenon Compact Arc Lamps for Searchlights and Solar Simulators 8

V

Vigil, Elena—The Effect of Helicoidal Configuration on Non-Circular Cross-Section Discharge Lamps 202

W

Wall, W. A.—High Intensity Portable Light for NASA Skylab Project 171
Walsh, P. J.—The Effect of Helicoidal Configuration on Non-Circular Cross-Section Discharge Lamps 202
Waymouth, John F.—Current Runaway in Fluorescent Lamps 43
Welty, Dale—System Analyses of High Mast and Conventional Street Lighting 121
